

International Society of Geospatial Health

MESSAGE FROM PRESIDENT

Dear GnosisGIS Members,

GnosisGIS celebrates a successful 2017 thanks to all of our friends and members. This has been a productive year with several sessions at international meetings, our annual meeting in Baltimore, Maryland and the continuing success of our journal, *Geospatial Health*. We look forward to 2018 and hope to see you at the 12th International Symposium on Geospatial Health in Moscow, Russia!

Our warmest wishes for a Merry Christmas and a Happy New Year!

Buon Natale 2017 e Felice 2018,

GNOSISGIS 2017—BALTIMORE, MARYLAND

The 11th International Symposium on Geospatial Health—GnosisGIS 2017 was held in Baltimore, MD, November 3-5. A spatial statistics workshop was taught by Dr Donal Bisanzio prior to the symposium.

GNOSISGIS 2018—MOSCOW, RUSSIA

The International Society of Geospatial Health (GnosisGIS) announces the 12th International Symposium of Geospatial Health will be held in Moscow (Russia) in conjunction with the conference “Practical Geography And XXI Century Challenges” (<http://100igras.ru/en/>). The conference is organized by the Russian Academy of Sciences (RAS) and will be held in RAS buildings in downtown Moscow. The theme of this year’s symposium is “Health Geography”.

The conference is held under the auspices of the International Geographical Union (IGU) and is dedicated to the 100th anniversary of the Institute of Geography of RAS - the largest world-renowned geographical research organization in Russia. This occasion provides an opportunity to make an overview of the domestic and international trends in geography's development to analyze the growing impact of scientific research internationalization, the aggravation of global problems, changing theoretical paradigms, radical renewal of research methods and predictions' validity, as well as to strengthen the integration between social and environmental branches of geography.
